## REMINDERS OF FRONTIER LIFE

PHOENIX TRAVELERS UNCOVER A LOT OF ANTIQUE CURIOS AT THE OLD TOWN OF LA PAZ, ABOVE YUMA.

PHOENIX, October 26.—Stirring reminders of frontier life in Arizona, many records of a forgotten town, and accounts written by men long since dead, are piled up in a heap in McKee's store as the result of the exploration made by C. W. McKee and Louis Garescha, while traveling in the western part of the territory a few days ago were apprised of the ruin by an Indian. They immediately investigated and brought away all they could find.

There are two old six-shooters, one of them with four notches in the barrel; a pair of baby's shoes of Spanish make, evidently designed more with a view to durability than to the infant's comfort; a figure carved from wood representing Christ; several bars of crumbling soap; ledgers of merchandise showing that sugar was worth 28 cents a pound; oysters \$6 a dozen and barley, \$7 per hundred pounds, payable in gold dust or bullion.

There are also two old law books, many signed by people prominent in the territory in the early days, a testimonial of thanks of the people of Arizona to General Crook for his services against the Apaches, and many other things interesting from an antiquarian's standpoint. Most of the papers are dated in the years immediately succeeding the civil war.

## HORSE RACES A GREAT FEATURE

MORE THAN TWO HUNDRED WILL BE MADE AT TERRITORIAL FAIR—GREATEST RACING EVENTS IN WESTERN HISTORY.

PHOENIX, Ariz., October 26.—That all may be entertained who attend the territorial fair, many forms of amusement will be provided, the most important being the harness and running races. There are now stabled on the grounds in excess of one hundred horses which are entered in the race events, and there are enough other horses entered which are yet to arrive to swell the number above two hundred. This is to be the largest race meet held this year west of the Mississippi. It will be productive of exceptionally fast time and close finishes. In one event, in addition to others, there are five horses entered that have been racing in the grand circuit this season. There are many of those entered here that have made good records in the grand circuit this year and all who come to the fair will see the fastest and best horses shown anywhere.

Nurses Dread Lightning  
Of all people who are glad when the season of thunderstorms is past, none are more thankful than professional nurses.

"It isn't that we are so afraid of lightning ourselves," said a nurse in Roosevelt hospital, "but it has a harmful effect on our patients. Most sick people have an unreasonable fear of lightning. In cases of extreme weakness or nervousness a dozen flashes of blinding lightning reduces the patient to such a state of prostration that it takes extraordinary efforts on the part of the nurse to bring him around. If one sick person requires all that extra attention in a thunderstorm, just imagine the predicament of the nurse who has a whole wardful of them on her hands."—New York Press.

Removed  
C. Demaretti has removed his dry goods, shoes and shoe repair store from 624 North Broad street to 558 North Broad street, where he will be pleased to meet friends and customers. The usual bargains may be had from a much larger assortment.

Ring up 372 for a painter. Van Wageningen will call on you and give you a first-class job.

With or without rubber tires. Columbus buggies at Globe Hardware company.

A thrilling race track scene. Don't miss it. At the Alexander tonight.

We frame pictures. Naquin & Co.

## FLAGS THE FLYER WITH HAT BOXES

ATTORNEY GENERAL CLARK WORKS A UNIQUE SCHEME ON THE SANTA FE AND REACHES PRESCOTT ON SCHEDULE TIME.

This is the story of how Attorney General E. S. Clark of the territory of Arizona stopped the Santa Fe limited at Holbrook, which place President Ripley's fastest mail train is in the habit of passing at the rate of sixty miles an hour; and, likewise, it is the story of how the ingenuity of Arizona's attorney general put at naught, with no weapon more alarming than a harmless handbox or two, the ironclad rule President Ripley has made concerning the non-stopping of the Santa Fe limited at Holbrook to pick up passengers. As learned by a representative of the Prescott Journal-Miner, Attorney General Clark was in Holbrook last Friday, with an overwhelming desire to come to Prescott in time to attend the ceremonies of laying the corner stone of the Masonic temple. There was no train on which the attorney general could possibly get to Ash Fork, and thence to Prescott, in time for this, save the Coast limited, and it, alas, did not stop at Holbrook under any consideration to pick up passengers.

Appeal to the Santa Fe agent at Holbrook to flag the train was met with a refusal as adamant in its firmness as was the Masonic corner stone and messages to those "higher up" proved equally unavailing.

The attorney general was in despair, and was just contemplating a mad dash across the country on horseback, when it came to his mind that the Coast limited was a government mail train, and therefore obliged to pick up the mail sacks at the various stations. However, this fact held out small hope of him attaining his object, which was to board that particular train, as the limited scoops in the mail sack at Holbrook from a crane beside the track, while flying along at the rate of a mile a minute.

But the sight of that crane gave the attorney general an idea. Only one mail sack, through the arrangement of the crane, could be taken aboard the speeding train, and if there were two sacks—

Hurriedly, Attorney General Clark made his way to a millinery store, where he secured two large ladies' hat boxes. With these under his arm he made his way to the postoffice, where the Holbrook postmaster was just putting up the mail sack that was to go aboard the limited, via the crane route. Thrusting his burden through the postoffice window, the attorney general asked:

"How much to send those by mail to Prescott?"

The amount stated was paid over, the packages stamped and addressed, and the postmaster turned to put them in the mail sack, when he discovered they were too large for one sack, already crowded with mail, and that another sack would have to be used.

With this discovery, the postmaster caught an inkling of what was in the attorney general's mind, for, turning to the latter, he is said to have declared that the whole business was a scheme to stop the limited, and that he, as a representative of the postal service, would have none of it.

Rather curtly, the attorney general informed him that he was there to see that packages left for mailing were forwarded at the earliest possible opportunity and, that painful though it might be, any dereliction of duty upon the part of the postmaster would be promptly reported to Washington.

The postmaster wilted, and the extra mail sack, containing two empty handboxes, was locked and carried down to the depot, just as the Coast limited rounded a nearby curve.

Of a necessity the Santa Fe's fast mail train was flagged, for the purpose of putting aboard the extra mail sack. And that is the story of how Attorney General Clark stopped the Santa Fe limited with two empty handboxes. Needless to add, when the train hurriedly resumed its flight across the country, the attorney general was snugly ensconced on one of its upholstered seats, en route to the next stop, Ash Fork, from which place he easily secured a train to this city, arriving here Friday night.

## JUR VERY BEST HOT BLAST

is the strongest and best hot blast stove made. It is a really wonderful heater (will hold fire 30 hours with half a ton of soft coal). It will burn ANYTHING—no coal is too cheap or poor for it.

Half the heating power of coal goes up the chimney as gas, when ordinary heaters are used. In the G. V. B. Hot Blast, this gas is oxidized and burned so that less coal is used and more heat obtained.

This is accomplished by means of the Hot Blast Draft, which takes in fresh air at the top of the stove, heats it to more than 500 degrees and forces it over the upper surface of the burning coal. The gas is thus thoroughly oxidized and burned, giving out 100% more heat than is obtained in ordinary heaters.

The G. V. B. Hot Blast stove will burn less hard coal than a base burner, to heat the same room. It gives off a uniform heat and is absolutely safe. Don't worry about the price of hard coal. This Hot Blast solves the problem. Look it over and see for yourself. It is made better and heavier in every way than any other similar stove sold. See it before you buy.

## The Hot Blast Stoves

will pay for itself in one season by saving fuel
